## Calling All Courageous Men

Inspired by the old saying "you cannot understand a person's experience until you have walked a mile in their shoes," courageous men across the country are boldly walking in women's shoes. Why? To help raise awareness about domestic violence and sexual assault. They know it is not just a women's issue and that every time a man's voice joins those of women in speaking out against violence, the world becomes a safer place for all.

## Why Walk?

One in 3 women has been victimized by domestic violence. One in three women has experienced sexual assault in her life time. One in six boys are sexually assaulted by the time they are 18. That means someone you know, someone you care about has been a victim of violence. So walk for your daughter, your son, your wife, your mother, your niece, your nephew, your colleague, yourself!!

Contact Hilary at 224.0256 to register!

## Missouri Shores Domestic Violence Center
